

Aspen Bio Motor Oil

Aspen Bio Motor Oil is a biodegradable fully synthetic engine oil based on renewable raw materials. It meets the U.S. classification API SJ/CF for petrol engines. The viscosity classification is 5W30 which ensures excellent cold start properties and high shear stability at high engine temperatures.

Aspen Bio Motor Oil is biodegradable according to OECD 301B. The oil is not classified as toxic and contains no components that accumulates in the environment.

Aspen Bio Motor Oil meets severe technical requirements as well as the highest environmental demands.

Technical Data

Classification		API SJ/CF
Viscosity Classification	5W30	
Visc. at 40°C	cSt	62
Visc. at 100°C	cSt	12
Visc. Index	-	197
Density	kg/L	0.88
Biodegradability OECD	%	>50
Pour Point	°C	-48
Flash Point	°C	234
